

Child Life Internship Program

Thank you for your interest in the Child Life Internship Program of Children's Hospitals and Clinics. We have two main campuses, one in Minneapolis and one in St. Paul. Each campus offers a full time (40 hour/week) 14-week placement to undergraduate students in their senior year. We also accept post-graduate students and those in Master's programs.

We have three sessions with application deadlines as follows:

Sessions	Application Deadline	Decision Deadline
Fall (Sept.-Dec.)	May 5	June 22
Winter/Spring (Feb.-May)	September 5	October 22
Summer (late May – Aug.)	January 5	February 22

Here are links to more information about the program and application materials.

- [Program Information](#). Contains information about the internship and our selection criteria.
- [Program Application](#)
- [Memorandum of Agreement](#). The contract between Children's Hospitals and Clinics **must** be reviewed and approved by your institution's legal department or administrative offices **before** an interview can be conducted. We encourage you to submit this document for immediate review. If you are accepted into the internship program, the contract will need to be returned prior to your start date. You do not need to include the contract with your application materials. It is only required if you are accepted.
- [Internship Opportunities](#)

Other information prospective students need to review:

- [Health Requirements for Students](#)
- [Operating Rules for Clinical Education Agreements](#)
- [Expectations of Students](#)
- [Description of Department and Roles](#)

Please complete the application form and return it, along with the requisite supporting documents to:

Diane Dingley, MS, CCLS
Children's Hospitals and Clinics
Child Life Department MS 32-7210
2525 Chicago Avenue
Minneapolis, MN 55404

or to:

Lori Wondra, MA, CCLS
Children's Hospitals and Clinics
Child Life Department MS 70-503
345 N. Smith Avenue
St. Paul, MN 55102

Children's always receives a large number of applications for internships. Because we accept a limited number of students at one time, we recommend you apply for an internship at more than one hospital.

Children's also has a [Child Life Volunteer Exposure Experience](#) available for students.
