Either Campus

Graduate respiratory therapists will transition from the academia to the professional respiratory therapy environment through a 4 - 4.5 month combined didactic and preceptor clinical program within the organization.

*During the program, residents will work 1.0 or 40 hours a week 8 hour shifts and occasionally weekend shifts.

*Hours of work will be determined by classroom and preceptor schedules.

*At the end of the program, residents will apply to open positions.

***Please visit the New Grad Respiratory Care Residency website at www.childrensmn.org under Employment Opportunities for more information.**

Required application elements:

- Completed Children's Hospitals and Clinics employment application online at www.childrensmn.org
- New Grad Residency Information Form. (This form.)
- Two recommendation forms from your *most recent* clinical instructors.
- Resume
- Current official transcript with school seal; no copies (must include grads from Fall 2008)
- Two paragraphs:
 1. Describe what professional RCP practice means to you.
 2. Explain what influenced your decision to apply at Children's.

Please submit all at one time to:

Children's Hospitals and Clinics of Minnesota
Human Resources Department 80-H190
