

Education Call Handouts and Streaming Links

For those of you interested in the video streaming, you must first make sure that you can access the test stream on Window's Media Player (can be downloaded for free) at: <http://www.visualwebcaster.com/event.asp?id=29487>. It will ask you to register and then click on Windows Media Player and you should be able to view the stream.

If you can view the stream you should have no difficulty accessing the actual video-streamed call. Please be aware that the computer you register on is the computer you will be viewing the streamed call from.

You can register a few minutes prior to the start of the call. You do not need to register in advance-if you do register in advance, please be aware that you should not click on the web stream link again until just prior to the call when you are getting ready to view it.

Below are the links for the upcoming education calls as well as handouts, and the link for the online evaluations and continuing education certificate (this link is also on the previous web page).

In addition to the handouts, each site needs to have everyone sign- in on the attendance sheet. The link for this is below for each call. This sheet is imperative to our record of participants with their signatures for continuing education credits. We keep these on file in case the respective granting offices request a copy of the participants. Please make sure that everyone signs in and indicates their discipline on the attendance sheet. At the conclusion of the call, please fax the sheet back to Kim Martinez at 651/686-0243.

If the handouts link is not highlighted blue, handouts are not available for that call

All calls are 2-4pm CST
