To protect one another and the community, and to slow the rate of COVID-19 spread, we have implemented social mitigation strategies.

It is recommended to **stay six feet apart** from people when you can.

**SIX FEET** is the equivalent of:

1. **Hospital Bed**
2. **LARGE Therapy Dogs**
3. **Wheelchairs**
3. **Stethoscopes**

And don’t forget to **wear your mask** properly!
