Note: This is the parent/legal guardian's Date of Birth.

Hadda ka dib waad la socon kartaa feylka caafimaadka ee ku jira boggan gaarka kuu ah ee Children's Minnesota.

The screenshot displays the MyChildren's Minnesota website interface. On the left is a navigation menu with options: MyChildren's home, Appointments, Messages, Medical record, Patient information, and Pay your bill. The main content area features a pink banner with the MyChildren's logo and the text 'Online access to your Children's medical record'. Below the banner is a section titled 'Influenza (flu) vaccine is available at Children's Minnesota clinics' with a sub-header 'Why vaccinate?' and a bulleted list of reasons. A 'Need copies of your child's medical record?' section follows, providing instructions on how to obtain records. On the right side, there are two panels: 'Viewing health record for Sally Smithe' and 'Allergies' which lists 'shellfish, Cats, No Known Medication Allergies'.

Influenza (flu) vaccine is available at Children's Minnesota clinics
Please [schedule an appointment](#) to get vaccinated.

Why vaccinate?

- The annual Influenza (flu) vaccine is the most effective way to reduce the risk of the flu.
- Some children who get the flu may miss school, and parents may miss work due to a week or more of high fevers, muscle aches and a severe cough. The flu can result in hospitalization or even death.
- While the flu vaccine is not 100% effective in preventing Influenza, we know children who have had the vaccine have a much milder illness.
- Immunizing the entire family helps protect infants who are too young to get the flu vaccine, and helps prevent the spread of this highly contagious respiratory disease.

Need copies of your child's medical record?
To ensure the privacy of patients and their families, parents or guardians must sign a Release of Information (ROI) form to get a copy of their child's medical records.

1. Print the [Release of Information \(ROI\) form](#)
2. Complete the ROI form
