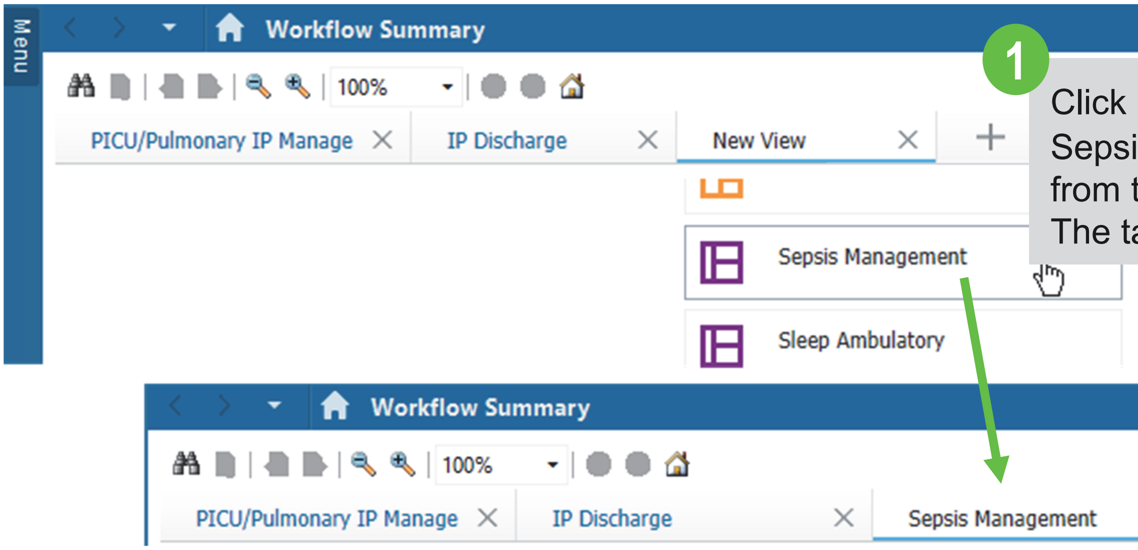
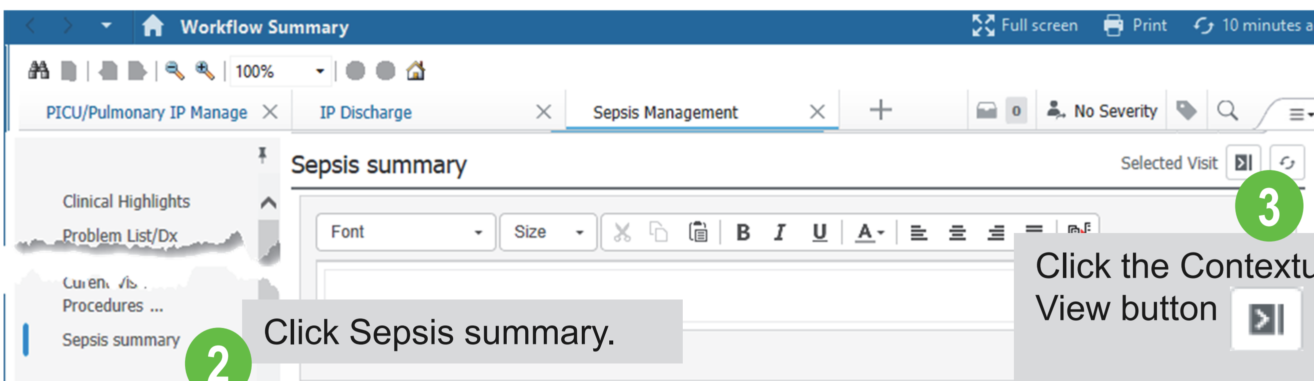
Customizing Workflow Summary for Sepsis Management

Add the Sepsis Management tab to your Workflow Summary:



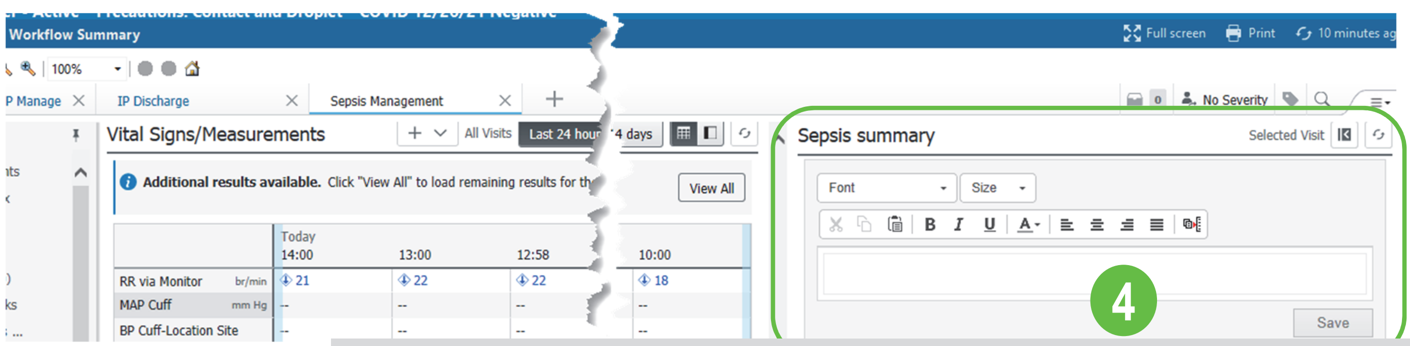
1 Click + and select Sepsis Management from the list of views. The tab is added.

Move the Sepsis summary component into view:



2 Click Sepsis summary.

3 Click the Contextual View button .



4 Sepsis summary has moved to the right side (scratch pad) of the Workflow Summary. The Sepsis Quick Visit dot phrase (.sepsis_Huddle) will be available to complete your documentation.

For more information, view the [Sepsis Trigger Tool eLearning]
