
Lab Dept: Other Fluids

Test Name: PH FLUID BY METER

General Information

Lab Order Codes: PHF

Synonyms: Body Fluid pH

CPT Codes: 83986 – pH, body fluid, except blood

Test Includes: pH reading from a pH electrode via meter.

Logistics

Test Indications: The pH of gastric, pleural, peritoneal and synovial fluids can guide in the diagnosis and treatment of ruptures or septic inflammation.

Lab Testing Sections: Chemistry - Sendouts

Referred to: Allina Health Labs (Test: 323)

Phone Numbers: MIN Lab: 612-813-6280

STP Lab: 651-220-6550

Test Availability: Daily, 24 hours

Turnaround Time: 1 day

Special Instructions: Send to lab within 30 minutes of collection.

Specimen

Specimen Type: Fluid, aqueous

Container: Screw capped, sterile vial or plastic syringe

Draw Volume: 1 mL preferred (Minimum: 1 mL) fluid

Processed Volume: Same as Draw Volume

Collection: Collect in clean, sterile container. Deliver to laboratory as soon as possible, pH will change with time. Specimens must be refrigerated within 30 minutes of collection.

Special Processing: Lab Staff: Submit entire specimen. Indicate body fluid source on the request form. Store and ship refrigerated. Stable for 24 hours. Performed in AHL Hematology lab.

Patient Preparation: None

Sample Rejection: Clotted specimen; mislabeled or unlabeled specimens

Interpretive

Reference Range: Not available

Critical Values: N/A

Limitations: N/A

Methodology: pH Meter
