

COVID-19

AT-HOME HEALTH SCREENING FOR EMPLOYEES AND GUESTS

Self-Screening Process for Employees and Guests

- Children's employees, licensed independent practitioners (LIPs) and guests are to perform self-screening for wellness prior to arrival at any Children's MN facility.
- Guests include visitors to a Children's MN facility who are not employees or LIPs and are not here to visit a specific patient. Examples include corporate donors, child life guests (mascot visitors), community guests (performance group), conference or class attendees who are not Children's employees, consultants, etc.
- Employees, LIPs and guests should screen themselves for wellness prior to arrival at any Children's MN facility. This includes self-screening for:
 - Fever or feeling feverish
 - Cough
 - Diarrhea or vomiting
 - Chills
 - Runny nose
 - Congestion
 - Nausea
 - Headache
 - Muscle aches
 - Shortness of breath
 - Breathing pain or difficulty
 - Sore throat
- Employees with any of the above symptoms should not come into work, contact Employee Health Services (EHS) for testing and evaluation, and notify the staffing office of absence. See [Employee COVID-19 Guidelines](#) for details.
- Guests with any of the above symptoms should not attend their Children's MN event, unless their symptoms are mild, and a medical provider has established a non-infectious cause of the symptoms.
- See [Visiting Standards](#) for additional guidelines for Guests of Children's MN whose visit includes patient care areas.
