

DONNING STEP-BY-STEP

Children's
MINNESOTA

1. Hand Hygiene

2. Put gown on (tie at neck and waist)

3. Loop mask or N95

To don N95:

- Open mask up to form a cone, cup mask with hand and place on face over nose and chin.
- Take first strap and place in the middle over your head and second strap and place at base of the head.
- Adjust mask at bottom of chin and start to mold nose piece with fingers.
- Complete seal check.

4. Face Shield

5. Gloves

DOFFING STEP-BY-STEP

Children's[®]
MINNESOTA

1. Inside patient room, remove gloves and discard

2. Remove gown (away from body) and place in dirty linen

3. Hand Hygiene

4. Outside patient room, wipe face shield with hospital approved disinfectant wipe

5. Remove face shield and place in bag

6. Remove loop mask or N95 and place in bag (loop mask can be used 1 per shift and N95 up to 10 decontamination cycles)

7. Hand Hygiene

To doff N95:

- Remove the lower strap, then the upper strap allowing the respirator to gently fall forward without touching the front of it.
- Place in the paper bag
