

## Children's Minnesota Allergy Testing Request Form

The lab uses the Phadia ImmunoCAP® Fluoroenzyme-immunoassay (FEIA) technique to detect allergen specific IgE in patient serum. The specific allergen will be reported in KU/L and specific IgE classes. The specimens are stored for one month for add-on requests. Please indicate any add-on requests. If the allergen you desire is not on our list, please indicate it in the empty spaces.

Date of order: \_\_\_\_\_

Date of Collection: \_\_\_\_\_

**ADD ON REQUEST (Please add-on the following allergens to a previously collected specimen)**

Patient's Name: \_\_\_\_\_ Patient's Date of Birth: \_\_\_\_\_ Patient's Sex: M / F

Patient's Diagnosis(es) related to this laboratory request: \_\_\_\_\_

Ordering Provider (please print): \_\_\_\_\_ Provider's Phone#: \_\_\_\_\_

Ordering Provider Address: \_\_\_\_\_ Provider's Fax#: \_\_\_\_\_

Ordering Provider's Signature: \_\_\_\_\_

*The following tests have been selected for use by physicians to test patients who live in Minnesota. The profiles were selected with the primary care physicians in mind. To have the highest clinical efficiency, the most important allergens were selected, and immunologic cross-reactivities were taken into consideration. Other allergens may be useful in certain patients*
