

Anesthesia Workflow Summary and Quick Orders Page

The Anesthesia Workflow Summary page is the default page upon opening a chart. This page layout allows chart review and documentation to take place on a single page.

Click the  to add the Anesthesia and Quick Orders Workflow Summary pages to your view.

The Anesthesia Workflow Component List is on the left side of the page. The Component List can be pinned to remain visible. Unpin it to close the view. It will open when hovering over the Settings icon. This is a fully customizable list. Click and drag a component to move it to create a customized list order.

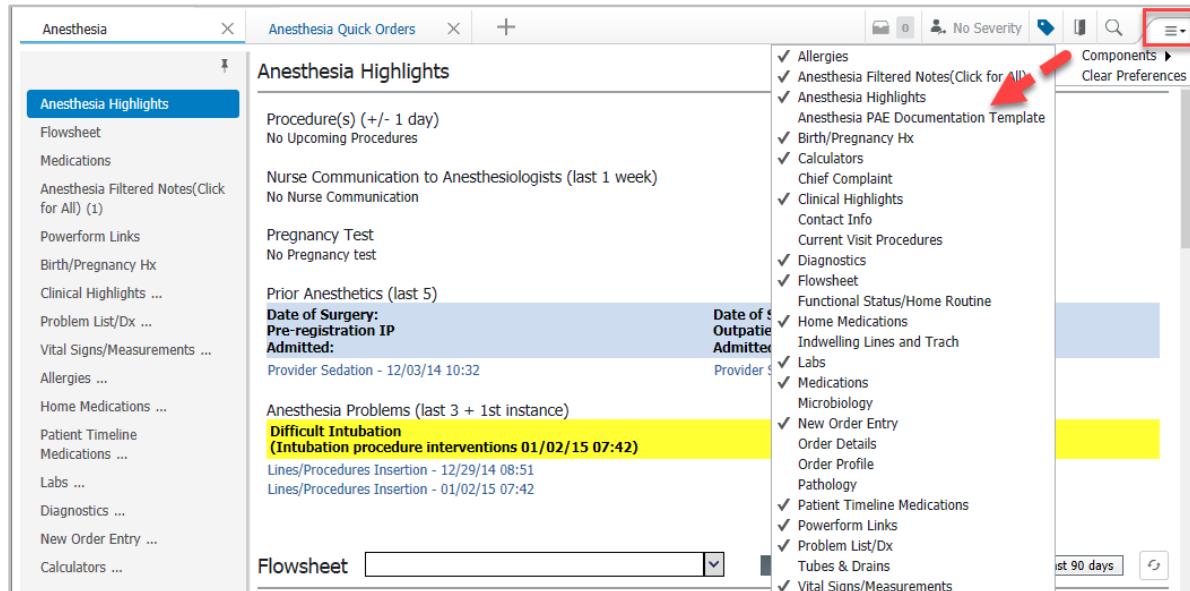

Anesthesia Workflow Summary

Hidden Component List

The component list can be customized by adding or removing components. Click the Settings button to view a full list of components. Checked items display and unchecked items are hidden from the preferred view.

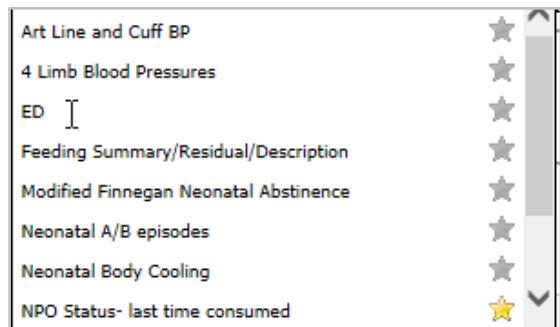

Note: CRNAs can deselect the Anesthesia PAE Documentation Template and the History of Present Illness to remove it from the menu view.

The screenshot shows the 'Components' dropdown menu open. The menu lists various clinical components with checkboxes. Many components are checked, including Allergies, Anesthesia Filtered Notes (Click for All), Anesthesia Highlights, Anesthesia PAE Documentation Template, Birth/Pregnancy Hx, Calculators, Chief Complaint, Clinical Highlights, Contact Info, Current Visit Procedures, Diagnostics, Flowsheet, Functional Status/Home Routine, Home Medications, Indwelling Lines and Trach, Labs, Medications, Microbiology, New Order Entry, Order Details, Order Profile, Pathology, Patient Timeline Medications, Powerform Links, Problem List/Dx, Tubes & Drains, and Vital Signs/Measurements.

Flowsheet

Displays information charted by nursing in the Pre-Op Assessment PowerForms. There are Anesthesia specific flowsheets that can be selected as a favorite.

The screenshot shows a list of flowsheets with star icons. The flowsheets listed are: Art Line and Cuff BP, 4 Limb Blood Pressures, ED, Feeding Summary/Residual/Description, Modified Finnegan Neonatal Abstinence, Neonatal A/B episodes, Neonatal Body Cooling, and NPO Status- last time consumed. The 'Art Line and Cuff BP' flowsheet is currently selected.

Anesthesia Highlights

Displays Anesthesia specific information.

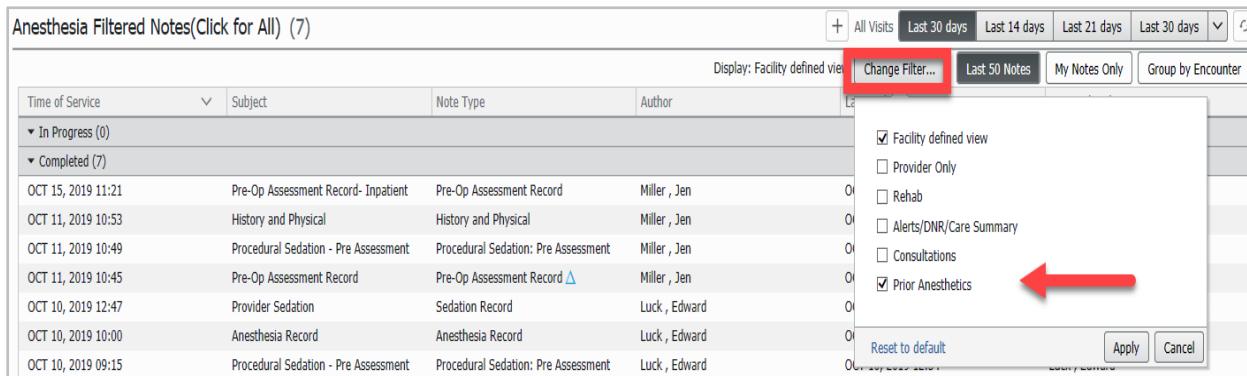

- Scheduled Procedures
- Nurse Communication to Anesthesiologists within the last week
- Prior Anesthetics (last 5) links to documentation
- Anesthesia Problems (last 3 + 1 instance)
- Prior Sedation/Anesthesia Problems links to documentation
- Vascular Access
- Airway Management

Anesthesia Workflow Summary

Anesthesia Filtered Notes (Click for All)

Displays Anesthesia relevant notes. This is a filtered component. The component header is a link to view all available documents. Click on the header to link to the **Notes** page. The filters for this component enable filtering by date range, note type, My Notes Only, and encounter.

- Customize filters to display Prior Anesthetics by clicking **Change Filter** and selecting **Prior Anesthetics**.

Quick Orders Page

Preference Settings

Sections can be customized for preferred views.

A. Add New View

- Add the Quick Orders page here.

B. Quick Orders Page Setup

The following can be customized for the entire page:

- Layout view: change layout of columns
- Drag and Drop: rearrange individual component sections
- Expand All: default all components to expanded sections
- Components: add or remove individual sections in view

C. Individual Component Setting

All component sections can be customized with the following:

- Customize color theme
- Set the component section level to an expanded view

Defaulted Component Sections

The following components will display on the Quick Orders page:

1. New Order Entry – Access to personal favorites
2. Analgesics Intermittent Dosing
3. Analgesic Infusions
4. Sedative/Anxiety Intermittent dosing
5. Sedative Infusions
6. Antibiotics
7. Antiemetics
8. Cardiac Infusions
9. Coagulation Medications/Infusions
10. Respiratory
11. Blood/Blood Products
12. Lab-Radiology
13. OOD CRNA Tasks-Charges
