Clinical Highlights Update

**New Inpatient Demographics**

**Primary Attending Contact** - includes the Service after the name of the first contact from the Attending service, for example, *Linda Madsen RN-CNP- Hematology & Oncology*

**Current Resident** - displays the most recent Resident Name from one of the resident groups. These are entered and managed by the Clinician teams from the Physicians Handoff tool.

**New Patient Information**

**Trauma Patient** - To assure that anyone who would move a trauma patient with a potential spinal cord injury are aware of the status of their spine we have added:

- If there are C-Spine radiology or safety orders, a display *C-Spine not Cleared* will appear until the Trauma Cervical Spine Clearance form is completed. Once completed, it will display *C-Spine Cleared Date/Time*.

**Blood Type** - To improve the ability to easily find this frequently used field, the results from ABO, ABO and RH or ABO type will be displayed.

**New Patient Plans**

**Emergency Metabolic Plan** – Click Yes to see the Emergency Metabolic Treatment Plan outlining key management strategies for patients with specific metabolic conditions when they become ill.

**Bleeding Disorders Treatment Plan** - Click Yes to see the most recent Bleeding Disorders Tx Recommendations document for ongoing management of patients with bleeding disorders.

**Surgical Bleeding Disorders Treatment Plan** – Click Yes to see the the most recent Bleeding Disorders Surgical Tx Recommendation document, which is used when a patient with a bleeding disorder is having surgery.

**Transfusion Consent** - Click Yes to see the most recent Transfusion Consent date.
