Lifetime Clinical Team

Overview

The Lifetime Clinical Team page in PowerChart is used to designate and maintain multidisciplinary provider/patient long-term relationships, across patient visits.

- The Care Team information is viewed in the Clinical Highlights section on all Workflow and Clinical Summary tabs.

- Provider/Multi-Disciplinary relationships listed on the Lifetime Clinical Team will be added to the Discharge Summary printed for patient/family. This list is provided to ensure that the patient/family has a complete list of all provider/multi-disciplinary care team members.

- Internal Children's Provider/Multi-Disciplinary relationships listed on the Lifetime Care Team are notified via Message Center of patient events such as admission to the hospital, ED visits, Day Surgery, and patient death.

Use the .dotphrase .cc to include a patient's Lifetime Care Team information in your note.

The **Lifetime Clinical Team** page displays provider/multi-disciplinary relationships across encounters:

- **Lifetime Provider Relationships**
  Allows you to view and coordinate care with providers who have an established relationship with the patient.
  Primary and Referring providers are added to the patient's chart during registration. Additional roles can be added by anyone in the care team when relevant. These relationships can be internal or external providers.

- **Lifetime Multi-Disciplinary Relationships**
  Allows multi-disciplinary relationships to be added (i.e., Social Work, RT, etc.).
  Consistent floor nurses should be entered as the **Consistent RN Caregiver Inpatient** role.
  Multiple internal staff members can be entered for each role.

Modify Lifetime Clinical Team

- Click **Manage** to change care team members for that role.
- Click **Remove** to delete care team members.

Assign Provider Relationship

Click the **Add New** button to add a care team member available in the database.

Note: See below for instructions on how to request an unlisted provider.

1. Select role.

2. Type in last name.

3. Click **Search**.

4. Click care team member.

5. Click **Select**.

### Add an Unlisted Provider to Lifetime Clinical Team

Click the **Add New** button to add an unlisted provider to the Lifetime Clinical Team.

Note: This request is only applicable to providers. Multi-disciplinary clinical team members are expected to be Children's employees.
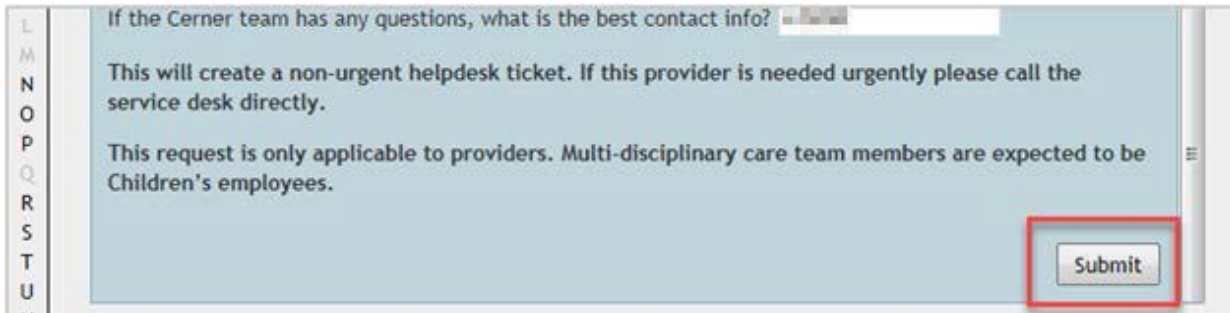

1. Click **Request Unlisted Provider**.

2. Complete the demographic fields.
