

January 2015

Tracheostomy ties standardized for better skin care

Beginning the week of Jan. 5, 2015, Children's is standardizing tracheostomy ties, reducing from the five existing trach tie products to one vendor with two product sizes from Pepper Medical/ NovaPlus. This conversion is being made for improved patient outcome and benefit by way of skin integrity. The tie is adjustable in the back and instructions are available on the packaging.

CONVERSION	OLD				NEW
