

# MEASLES

## FRONT DESK MEASLES SCREENING

1. Has your child or caregiver traveled outside of the US and now is subsequently sick?  YES\*  NO
2. Has your child been exposed to measles?  YES\*  NO
3. Does your child have a fever and a rash?  YES\*  NO

\*If the answer to **1, 2, or 3** is “yes,” room immediately and implement airborne precautions. Further assessment should occur in the patient room.

---

4. Does your child have a cough today?  YES†  NO
5. Does your child have a runny nose?  YES†  NO
6. Does your child have red or irritated eyes?  YES†  NO

† If the answers to **4, 5, AND 6** are all “yes,” check the patient’s MMR status (which has been reviewed by MAs during chart prep). For Ready Care or walk-in patients, front desk staff to review immunization history or call MA for immediate review.

- **If the patient has not received a dose of MMR**, or if the first dose of MMR was given in April 2017, room immediately and implement airborne precautions. Further assessment should occur in the patient room.
  - If the patient has received 1-2 doses of MMR *prior to April 2017*, complete check-in process and the patient may wait in the lobby with mask.
