

VISITOR GUIDELINES

Summer visiting guidelines in the NICU, ICC and SCN

- Legal guardians are welcome at all times and are not considered “visitors.”
- Visiting hours for all others are between 8 a.m. and 9 p.m.
- Visitors, including siblings, may not visit if they have fever, cough, sore throat or runny nose.
- Legal guardians with mild respiratory symptoms may visit, and must wear a mask.
- Legal guardians and visitors must be screened for wellness every day. Legal guardians and visitors will receive and wear a badge with a green, yellow or red sticker. The stickers indicate:
 -  Green — May visit, no mask required
 -  Yellow — May visit but mask required
 -  Red — May not visit inpatient areas, mask required
- Legal guardians and visitors without a badge may not enter patient care areas.
- No more than four people at the bedside at any one time — including legal guardians, siblings and other visitors. For the first 24 hours after admission, exceptions may be granted to meet the family’s needs, at the discretion of the bedside nurse.
- Siblings are defined as any children who live in the same household as the baby’s legal guardian(s).
 - Siblings under the age of two may visit one time for up to 15 minutes.
 - Siblings ages 2-4 may visit once daily for up to 15 minutes.
 - Siblings ages 5-11 may visit without restriction as long as they are healthy.
 - Children under age 12 who are not siblings may not visit.
 - Children 12 years and older may visit during regular visiting hours
- Length of visits – by adults or children – may be limited by the nurse based on the baby’s condition and tolerance.
- All legal guardians and visitors are expected to do hand hygiene at the Welcome Center and before entering the patient room.
