

INSULIN PUMP OPTIONS

Medtronic Minimed 780G

- Integrates with **Guardian 4 CGM**
 - ManualMode:** suspend-before-low
 - SmartGuard:** hybrid closed-loop system automatically adjusts basal insulin and provides correction boluses based on sensor readings and predictions
 - Approved ages 7+, min. 8 units TDD
 - Guardian 4 CGM approved for dosing decisions in SmartGuard
- MiniMed Mobile app** – view pump data on phone
- CareLink Connect app** – allows up to 5 caregivers to see pump and CGM data remotely
- Small basal (0.025 increments) -- minimum of 0.5u Lantus/Basaglar
- Waterproof
- Uses **AccuChek Guide Link meter** to send BG data to pump for bolusing

Medtronic 780G

Tandem T:slim X2

- Integrates with **Dexcom G6, Dexcom G7, and Libre 2 Plus CGM**
 - Control-IQ:** hybrid closed-loop system automatically adjusts basal insulin and provides partial correction boluses based on sensor readings and predictions
 - Approved ages 6+, weight 55 lbs+, min. 10 units TDD
- t:connect mobile app** – bolus from phone
- Small basal dosing starting at 0.1 units per hour and increases at 0.001 increments thereafter —min. of 2.5u Lantus/Basaglar
- Touchscreen, build-in rechargeable battery
- Waterproof at 3ft for 30 min

Tandem t:slim x2

Tandem Mobi

- Integrates with **Dexcom G6 and G7 CGM**
- Ages 6+, **Control-IQ** software
- Hybrid micro-pump; **optional patch** for on-body wear; waterproof
- Fully **mobile app dependent** (iPhone only)
- In-warranty upgrade program with cost*

Tandem Mobi

Omnipod 5

- Integrates with **Dexcom G6 and G7* CGM**
 - G7 available for commercial insurance only*
- Manual Mode:** uses CGM trend arrows to increase/decrease boluses; no automation in background
- Automated Mode:** hybrid closed-loop system automatically adjusts basal insulin based on sensor readings and predictions
 - Approved ages 2+, min. 5 units TDD
 - Must be using Dexcom *mobile app*
- No tubing:** wear a self-adhesive insulin **pod** filled with insulin and uses a separate **controller** to program pump and deliver boluses
 - Select Android phones compatible to use as OP5 controller; iOS compatible with Dexcom G6 only
- Pods are waterproof, controller is not
- Small basal dosing (0.05 increments) — minimum of 1.5u Lantus/Basaglar

Omnipod 5

CONTINUOUS GLUCOSE MONITOR OPTIONS

Medtronic Guardian Sensors

- FDA-approved ages 7+, **5-7 day wear**, two pieces: sensor and transmitter
 - **Connect:** standalone CGM with Guardian Connect mobile app only, requires twice daily **calibrations**, *not approved for dosing decisions*
 - **Link 3:** compatible with Minimed 670G/770G pump, requires twice daily **calibrations**, *not approved for dosing decisions*
 - **Link 4:** compatible with Minimed 780G pump, may **dose off of sensor readings** (no fingersticks required)
- **Sugar.IQ Smart mobile app** shows trends and patterns
- **CarelinkConnect mobile app** allows remote following for pumps/sensor. Ability to get text alerts for Guardian Connect (up to 5 people)

Dexcom G7 CGM

- FDA-approved ages 2+, **10.5-day wear**, all-in-one sensor/transmitter
- FDA-approved to **dose off of sensor readings**, no fingersticks required
- Integrates with **T:slim X2, Tandem Mobi, and Omnipod 5 pumps**
- Displays glucose data on Dexcom G7 mobile app or Dexcom G7 receiver
- **Dexcom Follow mobile app** allows up to 10 followers to monitor glucose remotely from their smart device
- **Clarity App** shows trends and patterns, also generates reports for healthcare provider to view

Dexcom G6 CGM

- Integrates **with T:slim X2, Tandem Mobi, and Omnipod 5 pumps**
- **Two pieces:** sensor and transmitter, **10-day wear**

Libre 3 Sensor

- FDA-approved ages 4+, **14-day wear**, all-in-one sensor/transmitter, no fingersticks required
- Displays glucose data on Libre 3 mobile app or Libre 3 reader
- **LibreLinkUp mobile app** allows remote monitoring for up to 20 followers

Libre 3 Plus Sensor

- **15 day wear**, data shows up on mobile or reader
- Not pump compatible yet

Libre 2 Sensor

- Must scan reader over sensor to see data, will backfill up to 8 hours of data
- Sensor data shows up on Libre 2 mobile or Libre 2 reader

Libre 2 Plus

- **15 day wear**, Integrates with **Tandem X2 pump**
- Requires use of **t:connect mobile app**
- Unable to share/follow
