

Allergen IgE Orderables Test Listing

Children's Laboratory utilizes Quantitative Allergen Specific IgE testing in the diagnosis of Childhood Allergy.

Ordering Allergens: Use the Allergen Care set (Cerner only) or search by allergen name in Sunquest or eCW to select individual allergens or one of the [Quantitative Profile/Panels](#) formulated for children

Specimen Requirements (see hyperlinks): [Allergen IgE](#) test listing for individual allergens OR one of the following panels: [Childhood Respiratory Panel >3 yrs](#), [Childhood Panel <3 yrs](#), [Food Panel](#), [Peanut Component Panel](#)
